Dear Attendees, Honoured Guests, and Partners,

It is a pleasure to welcome you to the LexTalk World Conference & Exhibition APAC, hosted here at the Radisson Blu Atria, Bangalore, on this 11th June 2026, day.

We gather at a truly defining moment for our profession. The traditional boundaries of legal practice are shifting rapidly, driven by unprecedented advancements in automation, evolving digital regulations, and the cross-border integration of markets. As the technology capital of India, Bangalore serves as the perfect backdrop for these crucial conversations—bringing together a unique density of tech innovators, corporate legal leaders, and pioneering legal minds.

This Show Guide is your roadmap for the day. It is designed to help you navigate our high-impact sessions, discover groundbreaking legal tech solutions, and connect with peers from across the global legal community.

The Theme: AI & Law - The Asian Frontier

The central focus of today's event revolves around "AI & Law: The Asian Frontier". Over the course of a single, intensive day, our keynotes, case studies, and interactive panels will move past theoretical debates to address the practical, real-world application of technology in law.

Our agenda is built around four core pillars designed to address your most pressing professional priorities:

AI in Legal Practice: Discover how generative AI tools are actively transforming legal research, contract management, and daily workflows.

Regulation & Compliance: Gain practical insights into navigating India's complex DPDP Act 2023 landscape and emerging global digital governance frameworks.

The LegalTech Ecosystem: Explore the scaling of LegalTech platforms and see how modern automation tools can optimize corporate legal operations.

The Future of Law in Asia: Delve into complex issues of IP ownership in the age of AI, cybersecurity defences, and cross-border legal frameworks.
